

*City of League City*

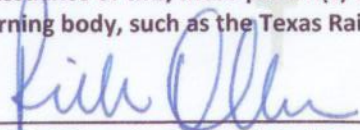

# Oil and Gas Conditional Drilling Permit

This permit, in conjunction with SUP10-04 (South Hammock), as approved by the City Council of League City on February 8, 2011, does hereby grant permission to *Forza Operating, L.L.C.* for the purposes of oil and gas drilling only. A drilling permit is required to operate each oil or gas drilling apparatus within the city limits of the City of League City. This form shall be posted in a conspicuous place on the drill site and not removed without prior permission from the Oil and Gas Coordinator for the City of League City. This permit shall be presented to the inspector or any city official or representative upon request. The terms and conditions of this permit are represented in the City of League City ordinance governing oil and gas drilling.

Permit Conditions and Stipulations  
(Added by the City at time of permitting)

1. Prior to drilling, a construction permit must be issued for roadway access to the drill site.
2. Prior to drilling, a sound study must be finalized and approved by a city representative.
3. Prior to drilling, a site specific Emergency Action Plan must be approved by a city representative
4. Prior to drilling, a revised site plan of the pad site must be approved by a city representative.
5. Prior to drilling, a photometric site plan with lighting contours must be approved by a city representative.

All conditions and stipulations must be met prior to commencement of drilling. This will be verified upon final inspection of the drilling site by a city representative. This issuance of this/these permit(s) shall not be construed as a permit to violate any provision of the City of League City Code or any other governing body, such as the Texas Railroad Commission, Texas Commission on Environmental Quality or the State of Texas.

Signed:   
Rich Oller, Assistant City Manager, Public Works

Date: 7/19/11
